

Ideation Phase

Empathize & Discover

Date	26 September 2022
Team ID	PNT2022TMID26244
Project Name	Project – Statistical Machine Learning Approaches to Liver Disease Prediction

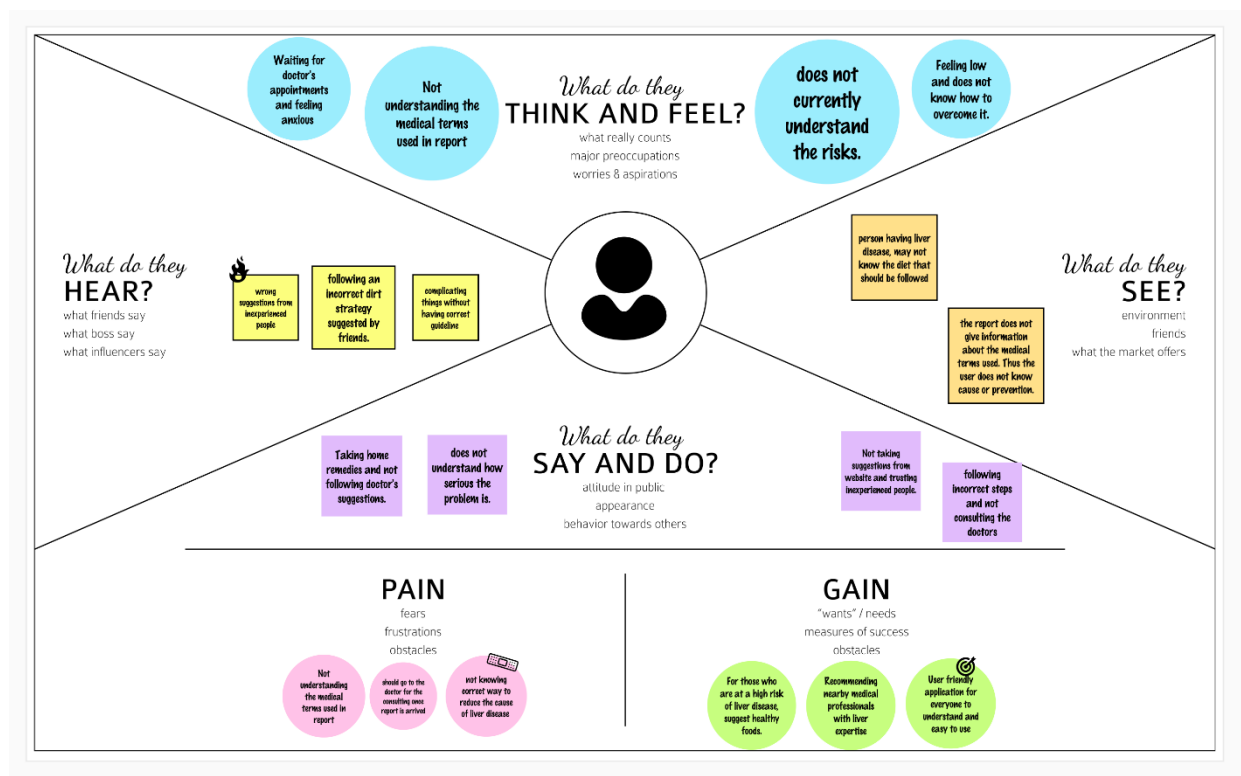

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Example: Learning Approaches to Liver Disease Prediction Statistical Machine
